Also, explain that failure to respond/rectify the situation will also be seen YOU MUST NOT call them threatening to file a report if they do not comply with your demands, as this may be construed as blackmail! You must first file a Ripoff Report, then fax them a copy, offering them a chance to rectify the wrong that they did to you. Explain that then, and only then, you will UPDATE your Ripoff Report in a positive way, if deserved.

Victims & lawyers who want to sue companies or individuals reported

Victims & attorneys who are interested in pursuing litigation against a particular company reported on this website must contact us directly. It is inappropriate to solicit business using this website other than through prior arrangement. This is largely because we need to ensure, the best we can, that our readers are not being taken advantage of again. If you are interested in filing a class action lawsuit based on Reports you've seen posted, and you want to identify a class representative, we can help by e-mailing those victims that gave permission and asking them to contact you. In this way, we protect victim identities while allowing them to make the decision as to whether to participate or not.

Additionally, if you would like to know whether any new reports are being posted AS THEY GET POSTED, such as during the early stages of an investigation, you may be interested in our upcoming Ripoff Alerts program. We'll update you shortly on how you can participate in these valuable programs.

We are arxious and willing to join forces with victims and attorneys to stand up for the rights of consumers and help them get justice. Both victims and attorneys should send their e-mails to:

It's important to file on Ripoff Report because we're important to government and media agencies

Many government sites (and the BBB) are in place to collect information from you, the consumer, but in many cases, those reports never become available for others to see. Listing your complaint on many government sites is usually no better than fling with the Better Business Bureau (BBB) because they just go into a database where only privileged eyes can see them. In fact, utilizing such sites may seem a waste of time, as you rarely hear back on what's being done, if anything, about your complaint.

By failing to make this information available publicty, it makes it harder for consumers to get educated about exactly what scams they should watch for. In addition, when these agencies fail to make these individual complaints public, consumers are robbed of the opportunity to know how bad a company or individual really is, and why On the other hand, many government agencies come to the Ripoff Report for information. We have assisted, and continue to assist, many government agencies, including local and state police departments, the FBI, FTC and Attorney General offices from around the country.

Since all the Reports are out in the open, consumers, journalists, attomeys and investigators from all types of agencies can research existing problems and anticipate potential problems. We provide immediate access to all kinds of fraud and scams, all out in the open, all unedited and all for FREE. Unfortunately, many agencies will not take action on a potential rip-off unless there are substantial numbers of people or substantial sums of money involved. Sadly, it often takes public embarrassment to motivate such agencies into action. Your reports, however, help to change this. Reporting your experiences on Ripoff Report is the next best thing to getting your story on TV or in a newspaper. In fact, many national TV networks and several local TV stations from all around the country come to the Ripoff Report for information. They do this because they know other agencies are not as reliable or as cooperative a source as the Ripoff Report. News stations know that they will get information from us that is unobtainable elsewhere.

By filing a Ripoff Report, you might be contacted by one of us to notify you to make contact with a law firm that has shown interest in your case. We get requests every week for class action lawsuits, bringing victims together with lawyers willing to sue the company after reading your Ripoff Report.
